> *WMT, your partner in domestic and international freight transport for over **26 years***

> **Chronology**
More than two decades ago, we had the courage to invest in development of a national operational network, ready to answer any transport needs.

The engine of these actions was the experience of transport and the intuition of extended international economic growth.

> **WHEN TIME IS RUNNING OUT!**

> **Our services**

- > Special Equipment (Flat Rack , Open Top, High cube, Reefer)
- > Door to door services
- > Intermodal transport (naval+rail/road)
- > Bulk Cargo

We provide solutions and quotes no matter the destination. Our experts are available for these services:

- Identification of the best means of transport
- Identification of the necessary lifting and moving devices
- Constant supervision by qualified employees to ensure special loads are safely unloaded and moved
- Customs formalities, Certificates of Origin, Certificates of Fumigation, permits

> WHEN TIME IS RUNNING OUT!

> China-Europe Rail Services

Rail transport ensures a 10-20 days shorter delivery time than the sea transport. This translates into faster circulation of goods and financial resources. It also enables one to build a competitive advantage and ensures lower costs of capital locked up in the cargo (“just-in-time”). Moreover, rail transport minimizes the impact of the human factor, weather conditions and road quality on timely deliveries. Thanks to this, cargo delivery planning becomes more precise.

Comprehensive rail transport services in import and export on the New Silk Road along a direct route China - Poland. We offer cargo deliveries to and collections from all Chinese provinces and other parts of Asia. The transport range includes Taiwan, Japan, South Korea, Vietnam, Kazakhstan and Georgia.

- > Weekly departures with closing date 7 days before departure
- > Transit 10-18 days terminal / terminal
- > Access to competitive rates from 10 train operators

Due to the fact that rail transport takes almost half the time required for shipping, you can plan your deliveries much easier by saving time and money.

> WHEN TIME IS RUNNING OUT!

➤ **International Road Freight**

- Fully operational network in Europe
